I come alive

I can describe

You try to wake me in the morning
When the dark turns into light
Everywhere there's a feeling
When the sun is just too bright

(Hey hey hey) When I think of you (makes me high)
Just the thought of you (tell me why)
Takes control of me
And now everyday I still feel the same way

I come alive
Everytime I think of you
I scream your name
I can describe
Every little thing that you do
Do you feel the same (please tell me)

Being around you's so easy
It makes me happy in every way
When I come home in the evening
I can't wait for the next day

(Hey hey hey) When I think of you (makes me high)
Just the thought of you (tell me why)
Takes control of me
And now everyday I still feel the same way
I come alive
Everytime I think of you
I scream your name
I can describe
Every little thing that you do
Do you feel the same (please tell me)

Let me tell you what i think
Because I'm going to explode if I don't tell you
Do you feel the same way I do (help me)
Am I on my own
I come alive
Everytime I think of you
I scream your name
I can describe
Every little thing that you do
Do you feel the same (please tell me)

I come alive
Everytime I think of you
I scream your name
I can describe
Every little thing that you do
Do you feel the same (please tell me)

I come alive
Everytime I think of you
I scream your name
I can describe
Every little thing that you do
Do you feel the same (please tell me)

[Repeat until fade]
