Waiting for the sun to go down
Just like it did the day that you left me
Waiting for the sun to go down
Just like it did the day that you went away

All I have to do is make it through
Until dawn
Until dawn

Waiting for the sun to go down
Just like it did the day that you left me
Waiting for the sun to go down
Just like it did the day that you went away

All I have to do is make it through
Until dawn
Until dawn

Waiting for the sun to come up
Just like it will the day you'll forget me
Waiting for the sun to come up
Just like it would if you stay
