Three little rabbits hop hop hop
Up a hill to the top top top
A fox pops up on the other side
Three little rabbits hide hide hide

Three little rabbits hop hop hop
Up a hill to the top top top
A fox pops up on the other side
Three little rabbits hide hide hide

Three little rabbits hop hop hop
Up a hill to the top top top
A fox pops up on the other side
Three little rabbits hide hide hide

We say hide hide hide
You little rabbits
Cuz the fox is comin' up
On the other side
So if you don't want your
Guts eaten out
Or for your little life to end
You better hide cuz a fox
Is gonna come and pretend
To be your friend

Three little rabbits hop hop hop
Up a hill to the top top top
A fox pops up on the other side
Three little rabbits hide hide hide

Three little rabbits hide hide hide
