

My Bad Story

"I Promise"

Visit "[I Promise](#)" on MotoLyrics.com

Don't forget me now, don't say that it's over
Please give me one more change
And I promise... it's my last time to make you happy
now

Give me something from you
And I know you hate me now
But I love you in this time
You make me fine, you make me loved
And you know I will always love you...

I promise... I'll never break your heart again
And I promise... I will always love you again

And I promise... you always in my heart
And I promise... I never leave you again
