This story's missing a wishing well  
No mirror to show and tell  
No kiss that can break the spell  
I'm falling asleep

Every Prince is a fantasy  
The witch is inside of me  
Her poison will wash away the memory

We kill the lights and put on a show  
It's all a lie but you'd never know  
The star will shine and then it will fall  
And you will forget it all

And after midnight  
We're all the same  
No glass shoe to bring us fame  
Nobody to take the blame  
We're falling apart

Every story's a waiting game  
A flower for every name  
Their colors are paling you  
With falling rain

We kill the lights and put on a show  
It's all a lie but you'd never know  
The star will shine and then it will fall  
And you will forget it all

Now you know it's so much better to pretend  
There's something waiting for you here  
Every letter that you wrote  
Has found its way to me my dear  
You can make believe that what you say  
Is what I want to hear

I'll keep dancing through this beautiful,  
delusional career.  
Faking every tear  
Looking like a compromise suicide

Keeping all my dreams alive
