

## My Dad Is Dead "Evolution"

Visit "[Evolution](#)" on MotoLyrics.com

Change is dropped on our heads,  
A ton of bricks, a house of lead.  
An it weighs on ou backs  
As it makes some of us crack.

Well... I love to watch the wheels  
Ever turning in non-stop revolution.  
I love to see hitory in the making.  
Give me non-stop evolution.

The status quo is stale and old.

Fresh air always blows in cold.  
Sometimes I think I'm scared to know.  
When my time's up will I let go?

Well... I love to watch the wheels  
Ever turning in non-stop revolution.  
I love to see history in the making.  
Give me non-stop evolution.
