You got them bad feelings
Fucking up your day.

You got them shitty memories
Clogging up your head.

You got an attitude and it's
Got to stop before it kills you.

It's just you standing in the way
Now it's only you.

You can't hold on forever.
You've got to put it away.

You've got tremendous problems
Fucking up your life.

You got a world to blame
For fucking up your life.

You're living a replay and it's
Got to stop before it kills you.

It's just you standing in the way
Now it's only you.

You can't hold on forever.
You've got to put it away.
