

My Forever "Walk Away"

One of your pretty hairs fell out last night
A piece of your little life gone without sight
Words I could never say come to me now
I'm screaming my lungs away yet make no sound
Yet make no sound at all

So be brave like you've got nothing to say
Those star eyes are only one step away
You sit and wait for me all day
Just walk away "walk away"
Just walk away

I stand here in empty shoes silhouette state
I plead you to see them filled with your soul mate
To see your tears it kills me still over again
The longing to hold your hands to fight your pain
To fight your pain away

So be brave like you've got nothing to say
Those star eyes are only one step away
You sit and wait for me all day
Just walk away "walk away"
Just walk away

I know that you're missing me but the time has come to
Find yourself less misery
The memories will not change, gotta think about
tomorrow
Though it might feel strange, "feel strange"

So be brave like you've got nothing to say
Those star eyes are only one step away
You sit and wait for me all day
Just walk away "walk away"
Just walk away

So be brave like you've got nothing to say
Those star eyes are only one step away
You sit and wait for me all day
Just walk away "walk away"
Just walk away

Just walk away
