Verse 1: Beautiful day, sun goin' down, looked to my left and, it was you that I found. You was ballin' then you looked me in my eyes, we both started smilin' then the thought hit me that you and I would...

Bridge 1: Soon be together, go somewhere and do whatever, maybe go somewhere and chill, hit the mall yeah that's what's real. Or we could catch up on some things, sit down and talk about you and me, later to find we had so much in common, and maybe meant to be.

Chorus: You're my everything and you mean so much to me. Can't explain how I'm feelin' babe you got me sprung now can't you see. You're my everything, now let me break it down to you, that you're my everything, and no matter what you do, I still love you.

Verse 2: Seen you wit your forces on, fresh jeans, and all white tee. Peirced ear, that's how I like you babe, was amazed by what I'd seen. My eyes took a sharp right, your flexed muscles glistening, wit your hair cut low fade, baby are you listening?

Bridge 2: Fine, about 5 foot 7, either light, brown or dark, boy I'm in heaven. Can't think of nothin' better, boy I'm so happy that we're together.

Chorus (Repeat 2x)

Final Bridge: You should know that, you're my everything, regardless of what it is, I'll help you with anything. If you're ever feelin' down, just remember I still love you, and you're my everything no matter what you do.

Chorus (Repeat until fade)
