Nobody's invincible, no plan foolproof
But keep in mind
We're rocking under the same roof
Bass fire's gonna take you higher

What you care?
You got a horn in your hand
You got a whistle round your neck
That's all you need for our next attack

Don't need a knife
Don't need a gun
Like Hypa says
We just want some fun

Don't need a knife
Don't need a gun
Like Hypa says
We just want some fun, yeah

Me no follow no rumor
Me say it's lonely at the top
Actions have reactions
So don't be quick to judge, yeah

Got the break

Flow in streams of fantasies
Come from deep inside
Substitute for memories
Dreams I have to hide

Flow in streams of fantasies
Come from deep inside
Substitute for memories
Dreams I have to hide

You got a horn in your hand
You got a whistle round your neck
That's all you need for our next attack

Don't need a knife

Don't need a gun
Like Hypa says
We just want some fun

Don't need a knife
Don't need a gun
Like Hypa says
We just want some fun, yeah

Me no follow no rumor
Me say it's lonely at the top
Actions have reactions
So don't be quick to judge, yeah

Got the break

Flow in streams of fantasies
Come from deep inside
Substitute for memories
Dreams I have to hide

Substitute for memories
Dreams I have to hide
