One in the jungle
Say lord have mercy!
Loud and clear
Lyrics like that, lyrics amaze
They could never ever pain
Wanna get it in hot sunny spain?
That's how I like it in the rain
Lyrics like that, lyrics amaze
They could never ever pain
Wanna get it in hot sunny spain?
That how I like it in the rain
Yeah!!
Loud and clear
Loud and clear
Jungle no wet, jungle no play
Jungle has face that don't fear the way
And make your move body
Your body like me say
Like me say with no deelay
Get on the dancefloor
Move your body with no deelay
Right about now jungle this is the way
But thing are going on Jungle today
Jungle no wet, Jungle no play...
To east, to the west, to north, to the south
Jungle is Forever and they can't run way out
To east, to the west, to north, to the south
Jungle is Forever and they can't run way out
That how i like it in the rain
Loud and Clear
Loud and Clear
Candyman for the microphone
And I run up the mordor
With the badford dj ride the rythm
Here up's we go for
When we joied the loop in the rain
You and me sing out
Jungle is the remedy
Jungle is the don't you ever
Seen it fight that do
