If I could stop the time to reach for sublime
Things getting strange like up and down
If you could read my mind it's hard to find
I said I want you back but this is no regret
It's my point of view and I'm going through
So take me away just for one day
I've never seen someone like you before
In my dreams I saw you standing there
I'm going out no more science I heard the news
There's someone you choose
I can't believe what they said
That's why I feel so bad
Morning, noon and night
My thoughts run circles without any purpose
I can't stand no more - it's like circus
I want to repeat, there's nothing wrong I've done
She's the sun
If I think of the past life is so fast
Those memories keep me alive and I will survive
Even if I'm here and left without
Is there any secret? do you think we'll keep it?
Life's so strange if you know what I mean
There's no one I've seen before like you
To be honest, I didn't expect something like this
It's you I miss now and forever
You and me together
That's what we thought our life should be
I never could imagine this would happen to me
You feel better now you said it's what I cannot believe
My thoughts run circles without any purpose
I can't stand no more - it's like circus
I want to repeat, there's nothing wrong I've done
She's the sun
....
I can't stand no more
There's nothing wrong i've done
She's the sun....
She's the sun!
She's the sun....
....
She's the sun.....

I dedicate this song to Sweet-Sun.... the sun im my
life.... this song is 100% what she is.... BEAUTIFUL!
