### "The Leading Horse"

Visit "[The Leading Horse](#)" on [MotoLyrics.com](http://MotoLyrics.com)

Chorus (pitched voice):

The leading horse is white  
The second horse is red  
The third one is a black  
The last one is a green

Well a who them a follow  
smokealot - the vibesbringer no dead ringer  
the trigger finger, got bombs in the grapevine  
connected to tech nines

It's H the lyrical weapon  
wanna clash me - let's get steppin  
your girls' panties, I will be wetting  
last night's events she won't be forgetting

Anticipating to tear through your spine  
anticipating taking your time  
when you're weak, they're telling you you are strong  
when you're right, they're telling you you are wrong

Chorus (pitched voice):  
The leading horse is white  
The second horse is red  
The third one is a black  
The last one is a green

Well a who them a follow  
the mic fiend - kind 'a surprise into your eyes  
no disguise, beatin' with time, switch sick, spit bricks  
I'm blockin ya lines

Chorus (pitched voice):  
The leading horse is white  
The second horse is red  
The third one is a black  
The last one is a green

No diggedy - deeper than most  
trust me crew I got reason to boast  
if you want war, then bring it

'coz there's no doubt, I'll easily win it

I bring quick brawls, fast trouble  
for every line you buss, I blast double  
when you're weak, they're telling you you are strong  
when you're right, they're telling you you are wrong

Chorus (pitched voice):  
The leading horse is white  
The second horse is red  
The third one is a black  
The last one is a green

I eradicate,  
Like rappers and the rapper way!  
Play this tape, check his face,  
He looks like from out of space!

I'm a stand-this-fate like thee,  
I'd like white light blind-eye type fear,  
Try against my mind's spike,  
With my tight blight figure like your right ear  
Yeah!

Chorus (pitched voice):  
The leading horse is white  
The second horse is red  
The third one is a black  
The last one is a green
