Rotting beneath the sea to find
Nothing more than ever lasting sand

As I see mountains stand time
The pieces call out my crime
At times I needed you but you were lost reality

I see mountains stand time
Nothing seems to live just die
At times I sit alone
It's not reality

Ow!
Now take a step back and move
Give it all you got to prove
We got nothing left to lose
Now take a step back and move
Give it all you got to prove
We got nothing left to lose
We all seem to live then die
You don't get it

I've traveled far to long
To all the wrong places
Searching for answers to
What have this brought to mind
This life is not for me
I've traveled far for all the wrong reasons
I've found nothing at all

Why!

Searching ways to find you X4

MY EPIPHANY

I know this life is not for me
And all that I have is me
That I have is me
