Do you think no more  
This time I settle the score  
Telling me all the lies  
I'm making my way through your disguise

Clearing the weight of dignity X2  
No meaning and no more time  
Making an example of you

Your lies X2  
Are as clear as day  
Their just another way for you to fuck with me  
There's no  
Truth in your words  
These games that you play are quite obsurred

Fuck with me  
Pay the price  
This time I win

Fuck with me  
Your gonna pay the price  
Now You'll see  
I'm gonna end your life

Clearing the weight of dignity X2  
No meaning and no more time  
Making an example of you
