G-goobely-goo  
Ah-h-h-hm

Ah yeah  
Now check it out

I would walk into the bathroom to take a crap  
I sit down, and then i write me a toilet stool rap  
Whether i'm constipated or have diarrhea  
I always come out with a funky fresh idea  
Even if you don't think it's funky fresh, and  
To all the little kids i'm makin a good impression  
Cause a lot of my hits are written on the john  
I hope my legendary style of rap lives on  
This's a hidden secret where classics come from  
Everybody has done it, even my man run  
Only in there i am the king of the throne  
Hey, hey, you know i can't be alone  
No girls, no guys, no dogs, no cats  
No parents, no nieces, no nephews, no brats  
That's the only way that i can get privacy  
And you know where i write my funky fresh rhymes live,  
you see...

Me sittin on a toilet  
Waitin for my bowels to move  
I got a doodoo rap  
I got a doodoo...

Yo, bust it  
Let me tell you a little something bout this episode  
It was four in the morning, chillin on my commode  
It was me, my pad, and pen, and my bad breath  
All of a sudden i came up with somethin that was real  
def  
I was thinkin, what a real beatbox could do  
What if i put a hype beat with the "p-pf 1-2"?  
Then i write some words, so i really can use it  
I think i would name this one make the music  
Like if i was the man that they call clark kent  
Cause i go into the bathroom for rhymes i invent

Then i come out on stage like superman  
But never show the people my masterplan  
Instead of movin towels, or movin vowels  
Only think i'm doin, is movin bowels  
A tv in the bathroom just might spoil it  
Only thing i can say is...

I'm sittin on a toilet  
Waitin for my bowels to move  
I got a doodoo rap  
I got a doodoo  
Doodoo  
Doo-oo-oo  
Doo-doo-doo-doo  
Rrrhaaa
