Oh I know that my time is short  
And I know that this distance I cannot afford to make  
Everything worth my time  
So I'll find a day and I'll make it this way

All of the time  
Go all around of me  
Make everything go your way  
I'll make a request and I'm making my mask  
As long as I push you away

I don't need you to tell me the way  
'Cause I know that I'm here to stay  
Don't tell me to leave while I'm resting in peace  
When I have to go I'm spending my time alone (I'm  
spending my time alone)

Oh I know that my time is short  
And I know that this patience I cannot afford to make  
Everything worth my time  
So I'm making a day and I run my parade

All of the time  
Go all around me  
Make everything go your way  
I'll make a request and I'm making my mask  
As long as I push you away

I don't need you to tell me the way  
'Cause I know that I'm here to stay  
Don't tell me to leave while I'm resting in peace  
When I have to go I'm spending my time alone (I'm  
spending my time alone)  
When I have to go I'm spending my time alone (I'm  
spending my time alone)

(I'm spending my time alone)  
(When I have to go I'm spending my time alone)
