can't find the reason
maybe I'm not the one
sit here and dream of you babe
look around but you've long gone
so let me take you far away
don't be scared c'mon
do you,
do you want to make me happy now
this must be the real thing
there could be no better way
swear to me that you leave him
that's all I wanna hear you say
I'm sure that we will find a way
don't be scared c'mon
do you, do you, do you
don't you want to make me happy now
