Intro:

'Till it goes bla-a-ack
'Till it goes bla-a-ack
'Till it goes bla-a-ack
'Till it goes bla-a-ack

Verse 1:

Tonight is the night for only you and me
Even when the lights flash we can barely see
Our only goal is to hear our hearts beat
Our tunnel vision makes this night complete

I lead an army of soldiers, on the floor
We have a plan, yeah we're strong from the core
We both know there's no turning back
While the DJ play's my favourite track

Pre-Chorus:

I'm gonna destroy this town
I'm gonna take you down
I'm gonna earn my crown
When you go down

Chorus:

I do what I like
I lead my own pack
I live my own life
I dance till it goes bla-a-ack

I do what I like
If you don't cut the slack
You know when I'll strike
I dance till it goes bla-a-ack

Post-Chorus:

Till it goes black, black
Till I can't see no more
I'm here to attack
I'll attack the dance floor

Till it goes black, black

My mind will turn off the bright
They should all stand back
I'll be a warrior knight

Verse 2:

I'll hit the town covered in black leather
Dressed to impress, baby, we look good together
Black gloves, black dye, and black jeans
We're leaders of the city, we're the kings and queens

We both know I'm only here for lust
You don't seem to mind or kick up the dust
It's not just for work and it isn't for play
This won't stop 'till we see the light of day

[Pre-Chorus]

[Chorus]

[Post-Chorus]

I'm gonna black out!

Bridge:

Till it goes black
That's where it's at (I'm gonna black out)
Till it goes black
That's where it's at (Black out)

Till it goes black
That's where it's at
Till it goes black
I'm just hoping
To come back!

[Chorus]

[Post-Chorus]
