Reaching the waters edge
Finding there's nowhere to go but through
Searching the depths within
Seeing there's no place to hold onto
But Your feet have walked
Through every wave that I'll ever face
(chorus)
Carry me over the water
Carry me through the darkest night
Carry me over the water
Safe to the other side
Facing an endless tide
Constantly pulled out away from shore
Feels like it's sink or swim
And I just can't fight anymore
But You take my hand
Here is my heart, You understand
Chorus
You are the One I need
Holding me close
Safe in Your arms
Chorus
