Ever since You stepped into my life
You are wonderful to me
Every time I open up my eyes
Your beauty is all I see
More then I could ever comprehend

(chorus)

I'll always be amazed at You and who You are
I love the way You take and heal my broken heart
I need You every day and night
You are life, You are life

Lord, You know I don't deserve it
But You're merciful to me
Even though I did not earn it
Your grace still covers me
Everywhere I've been and everywhere I'll go

chorus

You are life, You are life
I could not breathe without You
You are life, You are life
My world revolves around You

chorus
