I've got a certain kind of feeling
As he stepped outside that door
Instantly I want something
But I don't get no more
Please give me more
I want some more

Got a certain kind of feeling
As he stepped outside that door
I didn't think he'd leave so fast
And then he shut the door
He shut the door

I want some more
Please give me more
Just a wave goodbye
You know it felt so wrong
I don't know if his heart is breaking
Or if his heart is gone
Is it gone?

I want some more

I've got a certain kind of feeling
As he stepped outside that door
Instantly I want something
But I don't get no more
Please give me more

I want some more
