Matter of fact  
No fact  
No matter  
Who do you suspect  
Who is not afraid to die  
Who would tell such a lie  
Who runs away  
Who do we fear?

Somebody just like you gonna rape and strangle you?  
Would you mutilate yourself?  
And who would be so shocked by the brutal murder of  
a killer?

Will there be hundreds mourning for you?  
Will they talk of the talent and inspiration you gave?  
No  
Who besides your mother will stand in sorrow at your  
grave?

Mother may i?  
Momma mia

Ill see ya  
Ill see ya  
Ill see ya

I can't see  
I can't see  
I can't see  
I can't see

Its dark here  
No direction  
Just aggrivation  
Aggrivation over losing you  
To who  
No justice  
No clue

And the core of this agitation is my aggrivation  
Yeah the core of this aggritation is my aggrivation

I come down and upon despration  
I crawl inside and look out

Look out  
Look out

I can't see  
I can't see  
I can't see.

Some things don't come full circle  
Circle  
Circle

Pace  
Pace  
Pace  
We walk in place

No fact  
No matter  
Society did this to you?  
Does society have justice for you?  
Well if not  
I do

Because the core of this aggitation is my aggrivation  
Yeah the core of this aggitation is my aggrivation  
I come down and upon desperation  
I crawl inside and look out

I can't see  
I can't see  
I can't see  
I can't see  
I can't see

Socitey did this to you?  
Does society have justice for you?  
If not  
I do
