Written by Alan Glass, Mark Beswick and Maxi Priest

What makes the world go round

We fight to live through these ups and downs

The more we learn to appreciate

That the power of love is not to hate

Take a page from history

I keep comparing it with my story

If the folks don't realize the way they live

Then our love will disappear

CHORUS 1:

Looking for a place in life

And we're fighting for a way to survive

In a time where things are gonna have to change

Nothing forever stays the same

How can we carry on

These Heavy loads can get so strong

Is there some hope down the road

Tell me do we have to bear this on our own

CHORUS 2:

Searching for a place in life

And we're fighting for a way to survive

In a time where things are gonna have to change

Nothing forever stays the same

What makes the world go round

Why does it have to be this way

What makes the world go round and round

Why do we have to be this

CHORUS 1

Nothing forever stays the same
