I've been marching on like truth
Over some cold, hard ground
Through the smoke of the battle and the fire of pain
My eyes have seen the frontlines
I can still hear the sounds
I came to change the world and I've been changed

Glory gets a star and stories leave their scars
The road to victory is long
Now I'm heading home to the strongest force I
know
Can't wait to hold the reason I've been gone

You put the fight in me
You light the kind of flame
That shines across the sea
If there, if there is just one truth
I knew could see me through
The darkest of my nights
You put the fight in me

All the beautiful and brave
Count on the strong and true
To be standing for what's right half a world away
Every soldier soldiers on
With a prayer for me and you
That the price we pay would not be in vain

Heroes carry more than ammunition into war
They hold a hope of better days to come

Repeat Chorus

You have fought a war
Right where you are
Facing down your fears and now you've won
Keep hanging on
It won't be long
Til I'm back here in your arms

Repeat Chorus
