A mountain range or a shining sea  
Don't mean a thing to a satellite  
Information sent and received  
Throughout the day and night  
When will we send a message loud and clear

We're in the same boat not worlds apart  
All in the same boat not worlds apart  
Not worlds apart

Systems come and systems go  
Birds fly over the borderlines  
People gaze at the starlit sky  
Searching for a sign  
When will we get the message bright and clear

And i wanna learn  
Learn how to listen  
Listen to my heart

Not worlds apart
