"What's The Good Of Knowing?"

What's the good of knowing things you'd never miss
What's the good of knowing one wayward kiss
I cursed myself with knowledge and lost my innocence
What's the good of knowing your deepest fear / the
end is near
Now i spend my hours waiting for the past to reappear
What's good of knowing truth from a lie / one more
surprise
I begged for her confession and learned of my demise
What's the good of knowing the words they sang / the
bells they rang
What's the good of knowing forgotten dreams / one
broken seam
I thought i learned my lesson but i'm still in-between
What's the good of knowing?
