Unlock the gates to hell
With the cube of tears
Souls of damnation
Lust for your flesh
Pleasure and pain

Together as one
Exceed the limits of imagination
Hooks impaling your flesh
You lie dismembered
Mangled organs rot
Drowning in your blood
Skin gets torn away
Stretched past it's boundaries

Eternal sacrifice

Suffer in the pits
Infernal recomposition
From blood of the living
Vile suppuration
Sickening vision
Spinal formation
Sick desecration

Limbs re-attaching
A deathly revenge
Final incarnation
Swinging the hammer
Enter cenobites
Taking what is theirs
Tearing off your flesh
Now you shall suffer
