I love you more than life
I'd give you all I have you know
I need you next to me
Like the touch of a star
You came to my life
Giving me happiness
With the warmth of the sun
You blessed me inside
Giving me radiance
Oh you know it's true (you know it's true)
My miracle is you
I love you more than life
I'd give you all I have you know
I need you next to me
You always give me love
You're sent from up above you know
I need you next to me
Like a rainbow of light
You've opened my dreams
Filling my emptiness
When I'm deep in your arms

I feel what love means

Just with a simple kiss

oh you know it's true (you know it's true)

My miracle is you

I love you more than life

I'd give you all I have you know

I need you next to me

You always give me love

You're sent from up above you know

I need you next to me

Oh Baby

You give me more than anybody could conceive

So pure and special

Your love is the key

I will be sure to have you always next to me

You've given me the reason

The reason to live

Oh you know it's true (oh you know it's true)

My miracle is you

(oh... you know it's you)

I love you more than life

I'd give you all I have you know

I need you next to me

You always give me love

You're sent from up above you know

I need you next to me

I love to see you smile (see you smile)

I loved you all the while you know

I need you next me

Yeah...

I need you next to me
