Da... da ra...

Da... da ra...

Joy is not depend on reality
My life has always gone through the ups and downs of
The passion
Joys don't depend on the way I am
It's me whose deciding
Me whose deciding

If there's the way
To get what you've been wanting
If you could pray
And have it here, now, by your side
If there's a place
Where you can feel safe
If there's the fight
I know you'll never never never...

If you're having bad times
Please don't ever think that, man,
If I'm having bad times
It means that I am not all right
If there's a hole
Inside of you that score
If there's the fight
I know you'll never never never never never never
Never...

Joy is not depend on reality
