### "The End"

There's locks on the door  
A cold stony floor  
The walls closing in  
The air getting thin

Am I gonna die  
The end is in sight  
So get up off the floor  
Stand up and fight

Fight for your life  
Do it for you lover  
Swear you'll see her again  
And promise not to let this be the end

Gather your strength  
Defy all their ranks  
The guard's gone away  
And you've got a gun

I run and I shoot  
I dodge and elude  
Love can not lose  
I'm coming to you

Fight for your life  
Do it for you lover  
Swear you'll see her again  
And promise not to let this be the end
