the language of the lie  
barbed and callous tongues shall lick  
behind the thinnest doors  
a web of falsehood so unfolds

humility  
pride dissected maliciously  
a mockery  
bonds dissolve in endless mimickery

cruelly illuminated the subject of shallow spectacle  
inherent weaknesses revealed  
contact withers to a lull

once perfect pictures now stained with fingerprints  
tragedy fucks jealousy  
the human heartstrings bend and break

vultures with human eyes, can you feel them circling?  
preying on tender moments  
the failures of purest dream  
our selfish means are the means to this fucking end  
a knife for every spine of every man

nails scratching into the flesh until fibers are broken  
something's got to give

the bottoms of bottles no longer ease the pain  
and the bathroom mirror reflects the face of autonomy

man must invert  
internalize the pain  
the sequence replays in the mind  
the human heartstrings bend and break

vultures with human eyes, can you feel them circling?  
preying on tender moments  
the failures of purest dream  
our selfish means are the means to this fucking end  
a knife for every spine of every man

away a lot ugly answers lie somewhere in between  
intrinsic disregard and the burden of weakness

they're sharpening  
the knives are always sharpening  
a life now stained with fingerprints  
something's got to give!
