"In The End"

If I was a diver Â– I'd only dive on you
So wrap your legs around my face
If I had to land somewhere I'd only land on you
Even if I'd break every single bone

And if everything falls down
There is one thing you should know

Chorus:
My arms will hold you in the end
You will forgive me in the end
My love will find you in the end

When I was a lonesome wolf Â– I did not sleep at all
I'd rather yell the whole night long
Whish I was a fighting man Â– I'd take a loaded gun
And shoot your lover with a smile

And if everything falls down
There is one thing you should know

Chorus
