I dreamed of a spark – a light in the dark  
I guess I dreamed of you my country girl

There's so many gone - but you still shine on  
Dressed in your dirty wedding gown

Chorus:

So take me to the woods and the hey  
Step into a place I've never been  
Down there where the sea meets the sky

Take me to the wasteland of your mind

A fist full of lies – enough to dry my eyes  
You always shine on my country girl

I don't like where I live – but I love to live with you  
Wherever you may go I call it home

Chorus
