I'll never let you go

So, never let me go

I will be your journey

And you will be my road

Down the stormy path

Love will never come to pass

It will be an anchor

Although the winds may blow

[Pre-Chorus:]

And through the depths of high and low

Wherever you will go, I'll follow

To the end, back again

You know

[Chorus:]

Won't let you fall

Fall out of love

'Cause together we'll be holding on

'Cause all we have is us

Won't let you go

Go away again

Because life don't mean nothing at all

If I don't have your love

[Verse:]

I will dry your tears

Take away your fears

Let me be your shelter

Your heart is safe in here

So beautiful and pure

There's nothing I would not endure

Oh, love as got me blinded

I see it all so clear

[Pre-Chorus (1x)]

[Chorus (1x)]

[Bridge:]

I'm down for you for whatever

Anything you going through

What's mine is yours

Every little thing

I got you

Even when winds will change

Come smashing down and crashing on you

[Chorus]

(essa música está na trilha sonora do filme  
Poseidon)
