But wait-uh every month you're the flavor  
I wanna get a scoop - lat-uh!

She was the, "public enemy #1"  
She was my, "mona lisa" when we first begun  
She got me, "jump-in' around" like everlast  
Singin a, "rap life" with help from tash  
She be my, metronome rhythm to my feet

She like, "my melody" done by eric b., and rakim  
Cause she be rockin me steadily, yo

She like a beat that makes me wanna grab the mic
