[One for all 3x]  
[It's all it's all for one]

[Chorus]  
Let's start a union, calling every human  
It's one for all and all for one  
Let's live in unison, calling every citizen  
It's one for all and all for one

We don't want war- can't take no more  
It's drastic time for sure  
We need a antidote and a cure  
Coz do you really think Mohammed got a problem with  
Jehovah  
We don't want war - imagine if any prophet was alive  
In current days amongst you and I  
You think they'd view life like you and I do  
Or would they sit and contemplate on why  
Do we live this way, act and behave this way  
We still live in primitive today  
Coz the peace in the destination of war can't be the way  
There's no way, so people just be a woman be a man  
Realise that you can't change the world by changing  
yourself  
And understand that we're all just the same  
So when I count to three let's change

[Chorus]

Got no time for grand philosophy  
I barely keep my head above the tide  
I got this mortgage, got three kids at school  
What you're saying is the truth, but really troubles me  
inside  
I'd change the world if I could change my mind  
If I could live beyond my fears  
Exchanging unity for all my insecurity  
Exchanging laughter for my tears

[Chorus]

I don't know, y'all, we in a real deposition  
In the midst of all this negative condition  
Divided by beliefs, differences and religion  
Why do we keep missing the point in our mission?  
Why do we keep killing each other, what's the reason?  
God made us all equal in his vision  
I wish that I could make music as a religion  
Then we could harmonize together in this mission  
Listen, I know it's really hard to make changes  
But two of us could help rearrange this curse  
Utilizing all the power in our voices  
Together we will unite and make the right choices  
And fight for education, save the next generation  
Come together as one  
I don't understand why it's never been done  
So let's change on the count of one

It takes one, just one  
And then one follows the other one  
And then another follows the other one  
Next thing you know you got a billion  
People doing some wonderful things  
People doing some powerful things  
Let's change and do some powerful things  
Unity could be a wonderful thing

[Chorus]
