(Memories of what I wanted)
(Memories of what I wanted)

All the things we're going through,
Let me know when it is over,
I have never felt this way,
Marked with scars that won't recover,
I have always wanted you,
Will I ever be returned?
Now that I'm away from you,
I feel the desperations burning,

The war has lasted for so long,
We've both forgotten how it started,
I don't remember right or wrong,
I only know that we were parted,
All the loving memories,
All the time we spent together,
It will stay for centuries,
Our songs will last forever,

Memories of what I wanted
Memories of what I wanted

I will always be hunting
Memories of what I wanted
What remains of what I see
Memories of what I wanted
I've been trying to achieve
Memories of what I wanted
It is part of my belief
Memories of what I wanted

I don't waste the days I have
To make sure that I'll be with you
When the sky is turning red
Another day has passed without you
I'll avenge for what I've missed
And no one will be trying to stop me
If there's no one to assist,
I'll suffice for memories of me.

The war has lasted for so long,
We've both forgotten how it started,
I don't remember right or wrong,
I only know that we were parted,
All the loving memories,
All the time we spent together,
It will stay for centuries,
Our songs will last forever,

Memories of what I wanted
Memories of what I wanted

I will always be hunting
Memories of what I wanted
What remains of what I see
Memories of what I wanted
I've been trying to achieve
Memories of what I wanted
It is part of my belief
Memories of what I wanted

I will always be hunting
Memories of what I wanted
What remains of what I see
Memories of what I wanted
I've been trying to achieve
Memories of what I wanted
It is part of my belief
Memories of what I wanted
