She told me goodbye
And what can i say to her???
What can anybody say in my situation???
Why have i picked her for me???
And why she picked me???
I was into her
But she wasn't into me
I felt that i found the dream that all of my years
Then awake finding myslef hurt
I would have been better if she has said
She will go away
There is someone else
I would have better if she had gone
What would she gain?
in leaving me in pains
I felt that i found the dream that all of my years
Then awake finding myslef hurt
She told me goodbye
And what can i say to her???
What can anybody say in my situation???
Why have i picked her for me???
And why she picked me???
I was into her
But she wasn't into me
I felt that i found the dream that all of my years
Then awake finding myslef hurt
