Ignite

Have I ever let you down for you to let me fall like this
Have I ever faked a smile when I really meant it
For you to be mad like this
Have I ever sat a feet on your heart
And not say sorry that I made you hurt

(Chorus):

Go out and make the world hate me
Go out and let me ignite
Go out and destroy what I tried to build
Go out and set me on fire, leave me to die here suffer
Something I don't deserve.

Have I ever made you cry and laughed,
That you suffered the pain inside
Have I ever yelled it's over so you'd be humiliated
In front of everyone

(Chorus):

Go out and make the world hate me
Go out and let me ignite
Go out and destroy what I tried to build
Go out and set me on fire, leave me to die here suffer
Something I don't deserve

(Bridge):

Who I was, Who I am ignite with the light
Cause you we're the one who did it all to me

(Chorus):- 2x
