I'll mess your make up, show me again.
I can reduce you and I can pretend it's
HANDFULS CROWSNEST HELP ME FORGET
I made a prison so I can't get too far, made it my
mission to analyze the
Scar.

I want to beg you put out the fire
Read me the reasons show me the shots
I sew the seeds for hands that feed me

This blisters skip on the surface
I'm deep with blood in the tub
Shameless I'm dancing with the black dove

I'm burned and inked with a dark brand
Boring Soaking through the sieve
I think I've offered you all I can give

I'm in our old room stroke on the sun
Give me good reasons because I have none
You're reach exceeds
All my needs
