"All Hands Against His Own"

Visit "[All Hands Against His Own](#)" on MotoLyrics.com

He found all hands against his own
He found all eyes were looking down
And the sun had left and gone
All his friends could not be found

Don't talk about,
Don't think about love
She's not the one
You've been dreamin' of
Don't talk about it,
Can't live without

You say you're alone
He found all hands against his own

He found the sky
It turned to gray
And the clouds start rollin' in
Got no use for what they say
Got no use for where they been

He found all hands against his own
No light from up above
Just a dark and lonely road
He found all hands against his own
