Girl is on my mind
Girl is on my mind
Try ignore, try to unwind
But she is on my mind

Eyes are in my eyes
Eyes are in my eyes
Where I've been, how time flies
When she is in my eyes

See her standing there
See her standing there
She's gentle now, she takes great care
See her standing there

Hold me close to you
Hold me close to you
Not one thing that I would not do
If you hold me close to you

Girl is on my mind
Girl is on my mind
Try ignore, try to unwind
But she is on my mind
