Just a little heat  
From now on, it's a cold day  
You know it would take my worry away  
Worry away  
Shake my hand  
Can't let go  
No matter what you said  
'Cuz I already know  
Believe in this place  
'Cuz you, you got it written  
All over your face  
Why can't trouble  
Find a new friend  
'Cuz this can't be the way  
For the story to end  
Oh, no  
Shake my hand now  
I can't let go  
No matter what you said  
'Cuz I already know  
Believe in this place  
'Cuz you, you got it written  
All over your face
