"Just Got To Be"

When it comes to pride, and other sinful matters
You're gonna be mislead, left fear encounters

I've got to go because something's opened my mind
And it won't get better, no matter how hard I try
Whoa, yeah

You just got to be, the best thing for me

Evil hearts, in dark places
But now I find it, in familiar faces

I've got to go because something's opened my mind
And it won't get better, no matter how hard I try
Whoa, yeah

You just got to be, the best thing for me
