

Black Keys, The "Psychotic Girl"

Visit "[Psychotic Girl](#)" on MotoLyrics.com

I heard your boo your marrow
Pick em up just to let em down
You're the same baby but I always know
Just the way your gonna do

Oh lord oh lord
Just a psychotic girl and I won't get lost in your world

Friday night party life
You were acting like everything was alright
Later on with no one around
Had me fighting for air laying on the ground

Oh lord oh lord
Just a psychotic girl and I won't get lost in your world

I thought you changed but I should have known
You play nice for a time but then you do me wrong
I thought long and hard about what I should say
But when I was through it just came out this way

Oh lord oh lord
Just a psychotic girl and I won't get lost in your world
