Tell me where you're goin'  
What is going wrong  
I felt you leavin'  
Before you'd even gone  
And hold me now  
Or never ever, ever hold me again  
No more talk  
Can take me away from this pain I'm in  
Pain I'm in

See the moonlight shinin'  
On your window pane  
See it leave you  
As faithful as it came  
Please yourself  
So you don't have to be afraid  
Make amends  
Or carry on another way  
Another way

Tell me what you were thinkin'  
To treat somebody so  
The care he took  
The lengths to which he'd go  
Coals are hot  
To walk across without your shoes  
But in the end  
Know that you have nothin' to lose  
Nothin' to lose
