What a lovely way to start a Saturday,
and what a lovely time I'm having too.
There is no other way I'd spend my Saturday,
in fact there's nothing else I'd rather do.
That may be so but what about the turns and the
temptations,
you keep hanging there.
Starting out it doesn't take the best of me,
the hard part's when it gets towards the end.
Starting out it doesn't take the best of me,
the solitude ends up my only friend.
Maybe I'm supposed to be your enemy,
maybe I'm supposed to be your friend?
Maybe you don't wanna know me,
and maybe you're set on demands,
and maybe you don't even understand.
That may be so but what about the turns and the
temptations,
you keep hanging there.
Starting out it doesn't take the best of me,
the hard part's when it gets towards the end.
Starting out it doesn't take the best of me, that's when
the solitude ends
up my only friend,
my only friend,
my only friend.
Starting out it doesn't take the best of me,
you know the hard part's when it gets towards the end.
Starting out it doesn't take the best of me,
well I said,
the solitude ends up my only friend.
Starting out it doesn't take the best of me, that's when
the solitude ends

up my only friend,
my only friend,
my only friend.
