

Screaming Jets

"Stop The World"

Visit "[Stop The World](#)" on MotoLyrics.com

Well, I've got all these thoughts turning in my head
I have to write it all down
Trying to keep my head above the water
Stuck in a one horse town

I know I've got something but I can't put my finger on it
But every time I think about it, it disappears
Stop the world 'cause this is where I get off

Well, you can all carry on but just stop the world
Well, I can feel myself tumbling and fall
But I can get back up on my feet
'Cause I got something I'd like to show you all

I know I've got something but I can't put my finger on it
But every time I think about it, it disappears
Stop the world 'cause this is where I get off

Well, you can all carry on, someone please stop the
world
So c'mon stop the world 'cause this is where I get off
Well, you can all carry on but just stop the world
Stop, stop
