"The City Destroyed Me"

Too many dents in the armour
Too many eyes in the park
Too many needles in the daytime
Too many goons after dark

The city destroys

And all of the faces in the window
Feeding eyes in the night
And all of the innocent perverts
Keeping well out of sight

The city destroys
The city destroyed me

Let me out, let me out
'Cause I don't want this anymore, hanging 'round your
Door
Let me go, let me go...

Too many falls out the window
Too many holes in the street
Too many suits, too many dayjobs
So many legs, so many feet

The city destroys
The city destroys
The city destroyed me

Let me out, let me out
'Cause I don't want this anymore, hanging 'round your
Door
Let me go, let me go...
